

Pressure Ulcers – Information for Carers

The Facts ...

Did you know:

- Pressure ulcers can affect people of any age
- Many pressure ulcers are preventable
- The care you provide has a direct affect on pressure ulcers
- Early identification will prevent long periods of treatment and discomfort

Know The Pressure Points

These are the areas most at risk from developing pressure ulcers

How Can You Help

- **Be aware** – regularly check the skin of service users
- **Be careful** – how you handle a service users can affect their skin
- **Be cautious** – if you are concerned about a service users speak to your home care organiser

Speak to **health** if **you** think you
or **someone you** care for is at risk
